What is ScholarWorks?
California State University (CSU) ScholarWorks is a digital collection which captures, manages, and disseminates the scholarly materials of the CSU community. Currently nearly all of the CSU libraries have implemented a ScholarWorks site. These institutional repositories position the CSU to provide viable alternatives to members of the CSU community to manage their scholarly output.

Why ScholarWorks?
In its effort to enhance access to knowledge and information, beginning with the Fall 2009 semester, Sacramento State has required graduate students, who have a departmentally approved Thesis/Project/Dissertation, to submit it electronically on ScholarWorks along with a print copy signed by the faculty committee and department graduate coordinator or department chair. Communities of scholarly work, including theses, projects and dissertations, are discoverable and available full-text via the Library’s OneSearch. Descriptive information about deposited works also is made available to Google Scholar (http://scholar.google.com/) and other services.

Information about how to submit your thesis/project/dissertation electronically into ScholarWorks is attached. Library staff will be available to assist you during the Fall 2014 check-in period (December 1-5, 2014) in the University Library, Room 2023, between 8:30 a.m. and 3:30 p.m. each day. You can also contact us at scholarworks@csus.edu or 278-5656 during business hours.
